

Kenston Local School District

Course Placement Waiver

Student course placements by teachers are made after careful and thoughtful review of a student's progress in current classes and a thoughtful anticipation of future academic success in certain classes. If a student and his/her parents select to not follow a specific course placement, the student and parents shall complete the waiver section below. When selecting such a course, a student and his/her parents acknowledge that academic success in such a course cannot be guaranteed. Rather, a parental decision contrary to the school's placement decision could adversely affect a student's current and future grade point average and success in future courses.

* * * * *

WAIVER

The undersigned student and parent/s acknowledge selecting a course inconsistent with the school's placement decision and accept responsibility for academic success in such a course.
