

# THANK YOU

Winning the Division III state football championship at Kenston this season took more than just great players and a great coaching staff. It took the support of our school, parents, administration, alumni, fans and a community to get behind us, not to mention our team physicians, bus drivers and countless others who provided to a winning culture. When we stepped on that field at Tom Benson Hall of Fame Stadium to take on Kettering Archbishop Alter, our players and coaches knew they weren't just playing for themselves. For that, we're humbled, grateful and want to say thank you to all who made an impact on our campaign. The week leading up to our title game, we kept hearing the same message from alumni and supporters: finish it. Finish it and bring it home. That was the message to our team and our coaches, and I'm proud to say that we were able to get it done. We felt like we had all of Auburn and Bainbridge townships behind us that day. We've been saying it's been a train ride, and we're just picking people up along the way. I think those who attended our championship game saw that. We had one heck of a crowd to come down and support us. I'm proud of our school and I'm proud of this community. They really rallied behind our guys. Thank you!

Jeff Grubich, Head Coach
