

Dear First Grade Parents,

KENSTON
Timmons
Elementary School

The second grade teachers have prepared a summer packet for your child! Included in the packet are: a summer reading challenge, first grade sight word list, math practice, and journal paper for your child to continue to write throughout the summer (you will have to make copies☺). Doing these activities will help your child prepare for second grade.

The packet includes a list of first grade sight words for your child to practice and recall quickly. Don't forget to fill in your summer reading challenge! They will receive a small reward for returning their reading challenge in August. ☺ Please continue to read out loud and share books with your child as often as possible. We also encourage your child's participation in the public library's summer reading program.

For math, there are two sample addition and subtraction fact sheets for basic facts. You could also use flashcards or computer practice to help your child master these basic facts. Also, you can review some important first grade math concepts including:

- * Addition and Subtraction to 12 (math facts & w/in word problems)
- * Counting coins: penny, nickel, dime, and quarter (collections up to \$1.00)
- * Practice telling time to the half hour/hour
- * Practice counting by 2's, 5's, and 10's to 100
- * Identify odd and even numbers

Have a great summer! We are looking forward to meeting you and your child at Meet the Teacher Day in August.

Sincerely,

The Second Grade Teachers
