

# Volunteer Form

A key factor in the success of Kenston Schools is parental support! The programs, events, donations and financial contributions provided by the KHS PTO make a difference at our school by providing our students an even richer academic experience. Through the KHS PTO, there are many opportunities for you to volunteer your time, donate items, or contribute financially. Please review the opportunities below and check all that match your interest(s) and availability. Thank you for being involved and making a difference! Your student may drop this form off in the designated box in the KHS office.
